

ZEISS compatible styli

Precision-engineered components for
the highest quality standards

A practical range of ZEISS compatible products

itp supplies M3 and M5 styli and various accessories including styli holders, extensions, knuckles, cubes, and more.

Our range has been carefully compiled by our technical experts. We guarantee high quality, first-class service and fast delivery.

itp offers competitively priced adaptor plates for ZEISS VAST/VAST-XT and ZEISS XXT probe sensors, allowing easy exchange of set-ups to save cycle time and reduce calibration sequences.

Our exclusive Easy adaptor plate for ZEISS VAST has an active ID chip and a clamping function. The cube mount can be rotated by loosening three screws without dismantling.

If the product you require is not available in our standard range, please inform us of your specific requirements. Depending on the complexity, the product can be manufactured and prepared for dispatch within a few days.
